DIRECTORS' REPORT
FOR THE YEAR ENDED 31 DECEMBER 2023

The directors present their report and the financial statements for the year ended 31 December 2023.

2023 was a successful year for Lutine Yachts Limited, with revenue up by 64% compared with 2022. The majority of the increase came from the Fastnet race and, it being a biennial event, this income will not recur in 2024. Nevertheless, revenue was up across all categories, with good external charter bookings and strong support from the membership of the LLYC for Club Events. Costs were higher in 2023, again mainly due to the Fastnet. Nevertheless, the company recorded a gross profit, compared with a gross loss in 2022, and a small net overall loss for the period.

The Directors have made the decision to raise charter fees, for both LYC members and non-members, for the first time in recent years. This increase balances inflationary pressures on costs with the desire to offer reasonable rates to LYC members and maintain a competitive position in the market. We continued to invest in the upkeep of the yacht during the period.

Directors

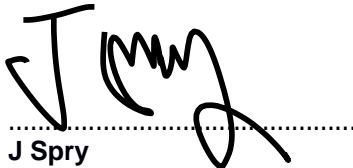

The directors who served during the year were:

T Bailey
T Blackstone
J Spry
E Nanni

Small companies note

In preparing this report, the directors have taken advantage of the small companies' exemptions provided by section 415A of the Companies Act 2006.

This report was approved by the board on 26th February 2024 and signed on its behalf.

A handwritten signature in black ink, appearing to read 'J Spry', is written over a horizontal dotted line. The signature is stylized and cursive.

LUTINE YACHTS LIMITED
(A company having no share capital and limited by guarantee)

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

1. GENERAL INFORMATION

Lutine Yachts Limited is a limited company domiciled in England and Wales.

The registered office is:
The Broadgate Tower 7th Floor
20 Primrose Street
London
EC2A 2EU

The principal activity of the company is that of other sports activities.

2. ACCOUNTING POLICIES

Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

Revenue

Turnover is recognised to the extent that it is probable that the economic benefits will flow to the Company and the turnover can be reliably measured. Turnover is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. The following criteria must also be met before turnover is recognised:

Rendering of services

Turnover from a contract to provide services is recognised in the period in which the services are provided in accordance with the stage of completion of the contract when all of the following conditions are satisfied:

- the amount of turnover can be measured reliably;
- it is probable that the Company will receive the consideration due under the contract;
- the stage of completion of the contract at the end of the reporting period can be measured reliably; and
- the costs incurred and the costs to complete the contract can be measured reliably.

Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, on a reducing balance basis.

Depreciation is provided on the following basis:

Yachts	- 10% reducing balance
Equipment	- 20% reducing balance

LUTINE YACHTS LIMITED

(A company having no share capital and limited by guarantee)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023

2. ACCOUNTING POLICIES (continued)

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in the Statement of income and retained earnings.

Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

Financial instruments

The Company only enters into basic financial instruments transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from banks and other third parties, loans to related parties and investments in nonputtable ordinary shares.

Financial assets that are measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the Statement of income and retained earnings.

For financial assets measured at amortised cost, the impairment loss is measured as the difference between an asset's carrying amount and the present value of estimated cash flows discounted at the asset's original effective interest rate. If a financial asset has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

For financial assets measured at cost less impairment, the impairment loss is measured as the difference between an asset's carrying amount and best estimate of the recoverable amount, which is an approximation of the amount that the Company would receive for the asset if it were to be sold at the balance sheet date.

Financial assets and liabilities are offset and the net amount reported in the Balance sheet when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

Finance costs

Finance costs are charged to the Statement of income and retained earnings over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

LUTINE YACHTS LIMITED
(A company having no share capital and limited by guarantee)

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

2. ACCOUNTING POLICIES (continued)

Borrowing costs

All borrowing costs are recognised in the Statement of income and retained earnings in the year in which they are incurred.

3. EMPLOYEES

The average monthly number of employees, including directors, during the year was 5 (2022: 5).
